Save the Harbor's Kids Beach Bash and Splash in East Boston today

"Hundreds of kids were at Constitution Beach in East Boston today for Save the Harbor's Kids Beach Bash and Splash. Great day for it as temperatures soared. It was a great way to get cooled off right in the water there. Kids from nine local organizations joined summer youth program leaders on the beach for swimming performances music games, some food. Officials from Save the Harbor say this is a great way to enjoy our public resources.

Chris Mancini: We are back on the beach finally, the first time in two years. We do this event, we used to do this event every single year, to bring kids and families from all over the neighborhood and all over the region, how to use the spectacular urban natural resources that we have here in Boston Harbor. Constitution Beach is a great beach, we just released our water quality report card for the year and Constitution Beach gets an A-minus, it's clean, almost every day of the year.

Organizers say these events help ensure everyone knows clean resources are available to everyone."
