

Clean Water? Swim Pleasure Bay

Do you want to clean water for you, your family, and your friends? Well, just bring them all to Pleasure Bay (frequently referred to as “The Lagoon” by well-informed South Bostonians).

Pleasure Bay has racked up a 100% test record for cleanliness over the past several years. Other South Boston beaches – City Point, M Street and Carson – are also essentially as good, as officially reported by Save the Harbor; Save the Bay.

This reminds South Boston Online of Jack Hart’s favorite rhyme, back when he was our State Senator:

**“Why spend a week, in Martinique,
When you can spend the day, at Pleasure Bay?”**
