Somerville kids enjoy harbor program

Over 80 kids from multiple different groups in Somerville visited the Boston Harbor Islands National Park in July as part of Save the Harbor/Save the Bay's free All Access Boston Harbor program. Somerville groups that took part included Groundwork Somerville, Mystic Learning Center and Somerville YMCA. More than 5,000 youth and teens have taken part in the free program so far this summer, which brings area youth groups to Spectacle, Peddocks, and Georges Island for a fun filled day of environmental exploration and healthy outdoor activities, including fishing, crabbing, swimming and art on the shore.
