

2018 Beaches Water Quality Report Card: Southie #1

May 27, 2018 by Maureen Dahill

We're #1! We're #1!

Here's another reason to love M Street Beach (And it's not because of the beautiful people that go there!)

According to [Save the Harbor/Save the Bay](#) water quality report, South Boston for the fourth year in a row has the cleanest beaches in the Boston area! M Street Beach has received high marks in having water that is safe to swim in and for passing 100% of their bacteria tests last summer.

Topping the list is M Street Beach, Carson, followed by Nantasket (South Shore), then City Point and Pleasure Bay!

Here's the report card below:
